**3B9, RODRIGUES ISLAND (Update).** Don Field, G3XTT (NK1G), 3B9C Publicity Officer, sent out on February 12th, a third bulletin concerning "Project Star Reach", a project focused around a major expedition to Rodrigues Island, with the callsign **3B9C**. Excerpts from the very long press release states, "All preparations for 3B9C are on track, and everything is looking good. Our container should arrive in Rodrigues on 26 February. This bulletin brings news of the Nevada Rodrigues Trophies for working 3B9C, some information about QSLing, and other items of interest." The release mentions that Rodrigues Island has moved up the "Most Wanted List" according to "DX Magazine's" latest rankings. It shows that Rodrigues has moved from

81st on the "Most Wanted Worldwide" in 2002 to 75 in 2003. For the U.S. the change is even more marked, up from 79 to 53 in the Eastern time zone and from 49 to 33 on the West Coast. Also mentioned were details of their "Nevada Rodrigues Awards Programme". The objective of the "Nevada Rodrigues Trophy Programme" is to encourage individual stations of all types worldwide as well as local club stations to make contact with the 3B9C DXpedition during March/ April 2004. They are very keen to encourage all amateurs to participate, particularly those with low power, relatively poor antennas or who are new to HF. They also want to encourage members of local clubs to participate. Trophies will be awarded to stations who work 3B9C on the highest number of band-slots. There are also trophies for SWLs. For specific details on the award, please go to their Web page. They state that the callsign of the 3B9C QSL Manager and P.O. Box will be announced in the next press release. Requests for bureau cards, however, can also be made via the 3B9C Web page. Direct cards will be available shortly after the DXpedition members return home. For more information and updates, please visit the 3B9C Web site at: <http://www.fsdxa.com/3b9c/>

**6Y, JAMAICA.** The RZS Amateur Radio Club (W2RZS), consisting of Bob/WB2NVR, Mike/WA2VQW, Adam/N2DHH and Bob/N2DVQ, announce that they will be operating from here during the time period **March 24-30th**. This will include their participation in the **CQ WPX SSB Contest** as **6Y2RZ**. Before and after the contest the club's callsign **W2RZS/6Y5** will be used, however; it is also possible that the club's members may elect to use their **homecalls/6Y5**. Mike intends to be particularly active on the WARC bands during non contest times, 30m is his favorite. All QSLs will be sent to, and answered via the bureaus. You may, of course, QSL direct with SASE if desired. WB2NVR collects stamps, so he will pay special attention to those!

**7Q, MALAWI.** Allen, G0IAS, informs OPDX that Harry, G0JMU, is once again active as **7Q7HB**. Harry has a busy work schedule, but as he is there for a **minimum of 10 weeks**, he should be able to get a bit of operating time in. He was active this past week on 30 meters, so look for him between 2100-2300z. Also, watch 15 meters (CW/SSB) between 1130-1530z. QSL is via G0IAS DIRECT ONLY (There is NO 7Q Bureau, and Harry has no cards). Allen, G0IAS, also reports to OPDX that Ron, 7Q7RM, informed him that the **7Q 50 MHz Beacon** which was hit by lightning is now repaired. However, as the supply of aluminium in 7Q-land is non existant, the antenna will be remade when he gets back from Rep. South Africa. The UK 6 meter group has offered to supply a new antenna and are waiting for a response from Malawi.

#### **QSL INFO AND NEWS.....**

- **OUTGOING QSL BUREAU CHANGE!** Martin, N1FOC, announced from the ARRL in Newington, CT, that the League has added 7 countries to the list of countries that they "do not serve". He states, "It got very costly to keep sending boxes of cards to these countries and have them keep bouncing back. They tried E-mailing the respective organizations and got ZERO response from that, and snail mail didn't work either." Effective immediately the ARRL Outgoing QSL Bureau had added the following countries to the "do not serve" list:

<b>CN</b>	Morocco	<b>UK</b>	Uzbekistan
<b>J8</b>	St. Vincent	<b>ZA</b>	Albania
<b>P2</b>	Papua New Guinea	<b>9Y</b>	Trinidad & Tobago
<b>PZ</b>	Suriname		

A full list of countries not served by the ARRL Outgoing QSL Service is available on the ARRL Web site.

- **A61AJ QSLS.** John, K1XN, from "The GoList", received a note from George, K2UO, the A61AJ QSL Manager for North/South America and all U.S. possessions (Remember,

Mario, DJ2MX, is the QSL route for the rest of the world), stating he has answered well over 7,000 QSL requests since taking over for Joe, N4QB. A good deal of the QSLs were backlog bureau cards George received from Joe. He has also answered the DIRECT backlog. Currently, George has ZERO backlog and answers cards the day he receives them. **HOWEVER**, there are considerable missing log segments, notably in 2002, especially March-April-May 2002; the WARC band QSOs. He does have a considerable backlog of MISSING LOG cards, and he is hopeful that Ghis/ON5NT and Robert/S53R will be able to find those logs. He has sent them a list of the missing dates/bands based upon QSL requests. So, guidelines for QSLing (per George) are as follows:

If you send for multiple QSOs (with a single SASE) and one or more are in the "missing log" category, your card will be held until the boys in A6-land either get George the missing logs or declare that the logs are unrecoverable.

- **JD1YAB AND JD1YAB/JD1 QSL STATUS.** Mr. Saburoh Asano, JA1MRM, the QSL Manager for JD1YAB and JD1YAB/JD1 (Also QSL Manager for 8N1OGA as well), has announced that all direct QSL cards (more than 15,000) for QSOs in the log and received by February 5th, were sent to the JARL Bureau on February 7th. Please DO NOT send YOUR QSL card to the BUREAU. The JARL BUREAU will not forward YOUR QSL cards to JD1YAB and JD1YAB/JD1. If you do not receive a QSL card(s) from JD1YAB, JD1YAB/JD1, or 8N1OGA after appropriate period, you can make a request to Mr. Asano about the QSL status via E-mail. His E-mail address is: ja1mrm@jarl.com
- Ulli, DL5MBY, announced that the log for **JY9QJ** has been updated (on the following Web page) including QSOs up to February 10th. You can also check the status of your **JY8YB**, **JY9QJ** and **JY8B** QSOs on the online log at: <http://www.qsl.net/dl5mby/>
- Mac, W3HC, informs OPDX that he is now the QSL Manager for the following stations: **XQ3WTR**, **CE3WTR**, **PY2OMS** and **PT5T**.
- **NOT THE QSL MANAGER!** (Update/Correction) Last in OPDX.647 we mentioned that KZ5RO was the QSL Manager for **TA3DD** and not KB2MS. However, last week we were informed that KZ5RO who was the QSL Manager, became a "Silent Key" in October 2003. A couple of sources report that Pete, K3PD, is now handling the QSL duties for Ron, KZ5RO (SK).
- Geo, UY5XE, informs OPDX that the **UA0ZAL/p** (AS-039, October 2001) QSL cards are printed and are ready.

**SILENT KEY.** It has been reported that Jim White, **K4OJ**, became a "Silent Key (SK)" on February 12th during the morning following liver failure after a somewhat risky heart valve replacement. Jim enjoyed contesting and was the first president of the Florida Contest Group. Jim will be surely missed. OPDX and its readers would like to send out our deepest sympathy to his family and friends. For more information on K4OJ, please read this week's "[ARRL Letter](#)" (Vol. 23, No. 07, dated February 13, 2004).

**T70, SAN MARINO.** Two members of the Florida DXpedition Group, William/N2WB and Bill/W4WX will be in San Marino from **March 16-22nd**. They will operate as guest operators from the **T70A** Club Station using the club's callsign. Look for them on the HF bands on CW, SSB and RTTY. All QSLs go to: A.R.R.S.M. RADIO CLUB, P.O.BOX 77, 47890 SAN MARINO, REPUBLIC OF SAN MARINO - ITALY.

**T98, BOSNIA-HERZEGOVINA.** Jose, CT1FKN (4W6FK), informed OPDX that he has

received the **T98FKN** callsign (dated **February 6th to August 6th**) and is currently in Bosnia-Herzegovina as a SFOR Member in the city of Doboј. He plans to operate on the HF and 6 meter bands during his free time. QSL via CT1FKN, direct or to the Portuguese Bureau.

**V26, ANTIGUA.** Operators George/K2DM and Peter/K3ZM will be active as **V26DX** in the **ARRL DX CW Contest (February 21-22nd)** as a Multi-Single entry. QSL via KU9C. Activity will be on the 6 primary HF bands only. George told OPDX that he and his brother Pete will be there between **February 18-24th**. They will erect the antennas on Thursday, then secure them on Tuesday after the contest. Most of their operations will be during the contest, but they will operate some outside of the contest starting Thursday evening and ending Monday night. Their operations will primarily be on CW with some SSB.

**V3, BELIZE.** Don/N5DD, Amy/KC5DJI, James/AG5TX, and Renee/KD5YCG will be operating from the **Palcencia peninsula** in southern Belize. Operations will be from **March 13-20th**. Activity will be SSB, RTTY, and PSK. Special attention will be paid to 12, 17, 80, and 40 meters, and possibly 160 and 6 meters. Callsign will be **V31AD**. QSL via N5DD. For more information and updates, please visit the Web site at: <http://www.dxpileup.net>

**VK9C, COCOS-KEELING ISLAND.** An early announcement by Bernd, VK2IA, states he will be active as **VK9AA** in the **CQ WW DX CW Contest (November 27-28th)** as a Single-Op/All Band entry. QSL via DL8YR.

**VK9L, LORD HOWE ISLAND.** Remember to look for Babs/DL7AFS and Lot/DJ7ZG to be active from here **between now and February 27th**. Their callsign will be **VK9LB**. Activity will be on 80-6 meters on SSB, RTTY and PSK. QSL via DL7AFS, via the DARC Bureau or direct to: Baerbel Linge, Eichwaldstrasse 86, D-34123 Kassel, Germany.

**VK9X, CHRISTMAS ISLAND.** Charlie, W0YG, will once again be active as **VK9XG** between **November 22nd and December 9th**. He states, "Hopefully, those who didn't make it in the log this last time will this next time." Charlie also mentions that all VK9XG cards for his operation in October and November 2003 should be out this week. He adds, "I can tell that propagation conditions were not good by the number of 'not in log' returns I have had to send. Sorry conditions were so bad but it is not often that one schedules a Dxpedition when three mass coronal ejections appear."
